

Medistim Workshop MAC 2023

Thursday 7th Dec | 15:00-16:00

Meet the experts

Intraoperative completion control in CEA and peripheral bypass - Why and how to use TTFM & HFUS

[\(Register for MAC here\)](#)

Presenters:

Dr. Christoph Knappich
University Hospital rechts der Isar, Munich

Dr. Katariina Noronen
Helsinki University Hospital, Finland

CEA

The rationale for intraoperative morphological control – data and guideline recommendations.

How to perform intraoperative ultrasound - technical tips and current algorithm at our hospital.

Cases – when should defects be corrected?

Peripheral Bypass

The rationale for completion control in lower limb arterial surgery.

How we do it at our hospital.

Cases – what to do in low flow situations?

Practical session

Introduction to the MiraQ™ system - **Madeleine Ho**, Medistim 5 min

Flow measurements demonstrated in flow simulator – **Dr. Noronen**

HFUS demonstrated by scanning of radial artery – **Dr. Knappich**
